High in the Clouds Paul McCartney 2006 Imagine a land where all the animals are free . . . To the creatures of the woodland, the land of Animalia sounds like a dream - a tropical island where all the animals live in harmony. They are over-shadowed by a much more evil community; the polluted Megatropolis, whose dirty skyscrapers block the horizon. And then one day, Wirral the Squirrel's woodland is destroyed by developers and he is thrown into the nightmare world of Megatropolis. But Wirral believes in Animalia and he joins with Froggo, a world-class amphibian balloonist, and Wilhamina, a girl squirrel, to lead the enslaved animals of the city to a new life. So begins an exciting adventure through the mean streets of Megatropolis, over the sea and

through the sky. Developed out of an exceptional fusion of creative talents, this story explodes onto every page. The plot is fast, furious and funny; the illustrations are full of rich depth and colour; and the characters live on long after you have turned the final page. It will delight children of all ages and is sure to become an enduring classic. 'Young audiences will delight in the clever wordplay and smartly-drawn comic characters.'

Mort Cinder Alberto Breccia 2018-09-01 Alberto Breccia is recognized as one of the greatest international cartoonists in the history of comics and Mort Cinder is considered one of his finest achievements. Created in collaboration with the Argentine writer Héctor Germán Oesterheld, best known in the U.S. for his

politically incendiary sci-fi masterpiece, the Eisner Award-winning *The Eternaut*, *Mort Cinder* is a horror story with political overtones. This episodic serial, written and drawn between 1962–1964, is drawn by Breccia in moody chiaroscuro. The artist's rubbery, expressionistic faces capture every glint in the eyes of the grave robbers, sailors, and slaves that populate these stories; while the slash of stripes of prisoners' uniforms, the trapeziums of Babylon, and more create distinct and evocative milieus.

The Lolita Effect M. Gigi Durham 2009-06-30 Pop culture—and the advertising that surrounds it—teaches young girls and boys five myths about sex and sexuality: Girls don't choose boys, boys choose girls—but only sexy girls; there's only one kind of sexy—slender, curvy, white beauty; girls should work to be that type of sexy; the younger a girl is, the sexier she is; and sexual violence can be hot. Together, these five myths make up the Lolita Effect, the mass media trends that work to undermine girls' self-confidence, that condone female objectification, and that tacitly foster sex crimes. But identifying these myths and breaking them down can help girls learn to recognize progressive and healthy sexuality and protect themselves from degrading media ideas and sexual vulnerability.

Comics in Translation Federico Zanettin 2015-12-22 Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries. And yet, relatively little has been written on the translation of comics. Comics in Translation attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the role played by translation in shaping graphic narratives that appear in various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics, including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. Comics in translation examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural backgrounds, from Disney comics to Art Spiegelman's Maus, from Katsuhiro ?tomo's Akira to Goscinnny and Uderzo's Astérix. The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English,

Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi.

In a secret world of forbidden knowledge, power comes at a terrible price...

Quentin Coldwater's life is changed forever by an apparently chance encounter: when he turns up for his entrance interview to Princeton University, he finds his interviewer dead – but a strange envelope bearing Quentin's name leads him down a very different path. Instead of Princeton, he finds himself invited to study at Brakebills – a secret college of modern-day sorcerers.

Quentin plunges deep into a secret world of obsession and privilege, a world of freedom and power; and for a while, it seems to answer all Quentin's desires. But the idyll cannot last. There are others powers than sorcery, powers that are as seductive as they are dangerous – and when the illusion of safety shatters, Quentin is drawn into a world far darker than he ever imagined.
