Past Life William Lane 2021-08 She wanted to photograph time: everything lost to time, and everything returned by it. Anna grows up in a third-storey unit in Parramatta with her adoptive Russian mother Sophia. When her teacher Miss Glass gives her a Box Brownie camera, small acts of observation coupled with the art of photography become her escape. On visiting the suburb of Castle Hill with her schoolfriend Lisaveta she falls into a seductive world of gardens and orchards. At the Thompson's place she embarks on a mission to photograph the orchard by night and day. It is there she meets Friedrich an older man, of German origin but from the Soviet Union, who lives in a shed on the property. She eventually learns that he was once a celebrated writer, his ambitions destroyed by the war. As events unfold Anna realises that her connections to the orchard and to Fredrich are deeper than she ever could have imagined. The mysteries and secrets of the past unfold in the most shocking, tender and unexpected of ways. Set in Sydney, and Russia, Past Life is a glorious novel about the various ways the gifts and traumas of the past play out in the present. It is the affecting story of relationships across generations and William Lane's most hauntingly beautiful work to date. 'Throughout this moving narrative, the traumas and triumphs of the past transform in the light of letters, poems, novels, paintings, photographs, dreams, and memories. Developing with the eerie precision of a photographic plate, old wars, lost loves, swim into view, then intersect, blossom, fade -- and take on new meaning.' -- Carmel Bird

The Persistence of Language Shannon T. Bischoff 2013-05-28 This edited collection presents two sets of interdisciplinary conversations connecting theoretical, methodological, and ideological issues in the study of language. In the first section, Approaches to the study of the indigenous languages of the Americas, the authors connect historical, theoretical, and documentary linguistics to examine the crucial role of endangered language data for the development of biopsychological theory and to highlight how methodological decisions impact language revitalization efforts. Section two, Approaches to the study of voices and ideologies, connects anthropological and documentary linguistics to examine how discourses of language contact, endangerment, linguistic purism and racism shape scholarly practice and language policy and to underscore the need for linguists and laypersons alike to acquire the analytical tools to deconstruct discourses of inequality. Together, these chapters pay homage to the scholarship of Jane H. Hill, demonstrating how a critical, interdisciplinary linguistics narrows the gap between disparate fields of analysis to treat the ecology of language in its entirety.

The Functional Art Alberto Cairo 2012-08-22 Unlike any time before in our lives, we have access to vast amounts of free information. With the right tools, we can start to make sense of all this data to see patterns and trends that would otherwise be invisible to us. By transforming numbers into graphical shapes, we allow readers to understand the stories those numbers hide. In this practical introduction to understanding and using information graphics, you'll learn how to use data visualizations as tools to see beyond lists of numbers and variables and achieve new insights into the complex world around us. Regardless of the kind of data you're working with—business, science, politics, sports, or even your own personal finances—this book will show you how to use statistical charts, maps, and explanation diagrams to spot the stories in the data and learn new things from it. You'll also get to peek into the creative process of some of the world's most talented designers and visual journalists, including Condé Nast Traveler's John Grimwade, National Geographic Magazine's Fernando Baptista, The New York Times' Steve Duenes, The Washington Post's Hannah Fairfield, Hans Rosling of the Gapminder Foundation, Stanford's Geoff McGhee, and European superstars Moritz Stefaner, Jan Willem Tulp, Stefanie Posavec, and Gregor Aisch. The book also includes a DVD-ROM containing over 90 minutes of video lessons that expand on core concepts explained within the book and includes even more inspirational information graphics from the world's leading designers. The first book to offer a broad, hands-on introduction to information graphics and visualization, The Functional Art reveals: • Why data visualization should be thought of as "functional art" rather than fine art • How to use color, type, and other graphic tools to make your information graphics more effective, not just better looking • The science of how our brains perceive and remember information • Best practices for creating interactive information graphics • A comprehensive look at the creative process behind successful information graphics • An extensive gallery of inspirational work from the world's top designers and visual artists On the DVD-ROM: In this introductory video course on information graphics, Alberto Cairo goes into greater detail with even more visual examples of how to create effective information graphics that function as practical tools for aiding perception. You'll learn how to: incorporate basic design principles in your visualizations, create simple interfaces for interactive graphics, and choose the appropriate type of graphic forms for your data. Cairo also deconstructs successful information graphics from The New York Times and National Geographic magazine with sketches and images not shown in the book. Incarnadine Mary Szybist 2013-12-17 Winner of the 2013 National Book Award for Poetry \* An NPR, Slate, Oregonian, Kansas City Star, Willamette Week, and Publishers Weekly Best Book of the Year \* Amazon's Best Book of the Year in Poetry 2013 \* In Incarnadine, Mary Szybist restlessly seeks out places where meaning might take on new color. One poem is presented as a diagrammed sentence. Another is an abecedarium made of lines of dialogue spoken by girls overheard while assembling a puzzle. Several poems arrive as a series of Annunciations, while others purport to give an update on Mary, who must finish the dishes before she will open herself to God. One poem appears on the page as spokes radiating from a wheel, or as a sunburst, or as the cycle around which all times and all tenses are alive in this moment. Szybist's formal innovations are matched by her musical lines, by her poetry's insistence on singing as a lure toward the unknowable. Inside these poems is a deep yearning—for love, motherhood, the will to see things as they are and to speak. Beautiful and inventive, Incarnadine is the new collection by one of America's most ambitious poets.

Transfiction Klaus Kaindl 2014-01-28 This volume on Transfiction (understood as an aestheticized imagination of translatorial action) recognizes the power of fiction as a vital and pulsating academic resource, and in doing so helps expand the breadth and depth of TS. The book covers a selection of peer-reviewed papers from the 1st International Conference on Fictional Translators

and Interpreters in Literature and Film (held at the University of Vienna, Austria in 2011) and links literary and cinematic works of translation fiction to state-of-the-art translation theory and practice. It presents not just a mixed bag of cutting-edge views and perspectives, but great care has been taken to turn it into a well-rounded transficcionario with a fluid dialogue among its 22 chapters. Its investigation of translatorial action in the mirror of fiction (i.e. beyond the cognitive barrier of 'fact') and its multiple transdisciplinary trajectories make for thought-provoking readings in TS, comparative literature, as well as foreign language and literature courses.

Region-Making and Cross-Border Cooperation Elisabetta Nadalutti 2017-12-15 This book explores the nature of regions and how they function, particularly at the local and micro-level. Whilst recent years have seen a resurgence in debates around the roles which regions can play in development, the focus has tended to be on 'macro' regional institutions such as the EU, ASEAN, ECOWAS or MERCOSUR. In contrast, this book offers a nuanced analysis of the important field of sub-regionalism and sub-national cross-border cooperation. Region-Making and Cross-Border Cooperation takes a fresh look at both theoretical and empirical approaches to 'region-making' through cooperation activities at the micro-level across national borders in Europe, Southeast Asia, Latin America, Africa and the Middle East. The book aims to explore the role that institutional dynamics play at the micro-level in shaping local and global ties, investigate what the formal and informal integration factors are that bolster regionalism and regionalization processes, and to clarify to what extent, and under what conditions, cooperation at the micro-level can be instrumental to solving common problems. Scholars and students within politics, sociology, geography, and economics would find this book an important guide to regionalism at a micro-local level perspective.

I'm Lia Adams and I'm in my last year at St. Claire's University in North Carolina. I grew up with an abusive mother, and a twisted stepfather who was worse...so much worse. I'm so close to escaping from my past and making my dreams come true. I'll do anything necessary to survive, even work as an escort to help pay for my college expenses. The men that I accompany to various events as an escort for Date Night are mostly harmless and just want an attractive woman on their arm for an evening. It has never gone further than that...until him... Lucian finally shares his past heartache and guilt with Lia. Free of the shadows that have haunted them, they are ready to move forward together. Until...the woman who destroyed Lucian's life eight years ago is suddenly free. Receptive Multilingualism Jan D. ten Thije 2007-01-01 Receptive multilingualism refers to the language constellation in which interlocutors use their respective mother tongue while speaking to each other. Since the mid-nineties receptive multilingualism is

promoted by the European commission on par with other possibilities of increasing the mobility of the European citizens. Throughout the last ten years a marked increase in the research on this topic has been observable. This volume reveals new perspectives from different theoretical frameworks on linguistic analyses of receptive multilingualism in Europe. Case studies are presented from contemporary settings, along with analyses of historical examples, theoretical considerations and, finally, descriptions of didactical concepts established in order to transfer and disseminate receptive multilingual competence. The book contains results from research carried out at the Research Center on Multilingualism at the University of Hamburg as well as contributions by various international scholars working in the field of receptive multilingualism.

Handbook of African Medicinal Plants, Second Edition Maurice M. Iwu 2014-02-04 With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

The White Tiger Aravind Adiga 2008-04-22 SOON TO BE A MAJOR MOTION PICTURE The stunning Booker Prize-winning novel from the author of *Amnesty* and *Selection Day* that critics have likened to Richard Wright's *Native Son*, *The White Tiger* follows a darkly comic Bangalore driver through the poverty and corruption of modern India's caste society. "This is the authentic voice of the Third World, like you've never heard it before" (John Burdett, *Bangkok 8*). The white tiger of this novel is Balram Halwai, a poor Indian villager whose great ambition leads him to the zenith of Indian business culture, the world of the Bangalore entrepreneur. On the occasion of the president of China's impending trip to Bangalore, Balram writes a letter to him describing his transformation and his experience as driver and servant to a wealthy Indian family, which he thinks exemplifies the contradictions and complications of Indian society. Recalling *The Death of Vishnu* and *Bangkok 8* in ambition, scope, *The White Tiger* is narrative genius with a mischief and personality all its own. Amoral, irreverent, deeply endearing, and utterly contemporary, this novel is an international publishing sensation—and a startling, provocative debut.

Violence and Trolling on Social Media Sara Polak 2020-10-30 'Trolls for Trump', virtual rape, fake news - social media discourse, including forms of virtual and real violence, has become a formidable, yet elusive, political force. What characterizes online vitriol? How do we understand the narratives generated, and also address their real-world - even life-and-death - impact? How can hatred, bullying, and dehumanization on social media platforms be addressed and countered in a post-truth world? This book unpicks discourses, metaphors, media dynamics, and framing on social media, to begin to answer these questions. Written for and by cultural and media studies scholars, journalists, political philosophers, digital communication professionals, activists and advocates, this book makes the connections between theoretical approaches from cultural and media studies and practical challenges and experiences 'from the field', providing insight into a rough media landscape.

A New Era? Sue Ingram 2015-09-17 Timor-Leste has made impressive progress since its historic achievement of independence in 2002. From the instability that blighted its early years, the fledgling democratic country has achieved strong economic growth and a gradual reinstatement of essential social services. A decade on in 2012, Presidential and Parliamentary elections produced smooth political transitions and the extended UN peacekeeping presence in the country came to an end. But significant challenges remain. This book, a product of the inaugural Timor-Leste Update held at The Australian National University in 2013 to mark the end of Timor-Leste's first decade as a new nation, brings together a vibrant collection of papers from leading and emerging scholars and policy analysts. Collectively, the chapters provide a set of critical reflections on recent political, economic and social developments in Timor-Leste. The volume also looks to the future, highlighting a range of transitions, prospects and undoubted challenges facing the nation over the next 5–10 years. Key themes that inform the collection include nation-building in the shadow of history, trends in economic development, stability and social cohesion, and citizenship, democracy and social inclusion. The book is an indispensable guide to contemporary Timor-Leste.
