Intelligent Computing and Innovation on Data Science Sheng-Lung Peng 2020-05-14 This book covers both basic and high-level concepts relating to the intelligent computing paradigm and data sciences in the context of distributed computing, big data, data sciences, high-performance computing and Internet of Things. It is becoming increasingly important to develop adaptive, intelligent computing-centric, energy-aware, secure and privacy-aware systems in high-performance computing and IoT applications. In this context, the book serves as a useful guide for industry practitioners, and also offers beginners a comprehensive introduction to basic and advanced areas of intelligent computing. Further, it provides a platform for researchers, engineers, academics and industrial professionals around the globe to showcase their recent research concerning recent trends. Presenting novel ideas and stimulating interesting discussions, the book appeals to researchers and practitioners

working in the field of information technology and computer science.

Ancient Roots, New Shoots Bertus Haverkort 2003-03 Knowledge has become a buzzword of the age. In the North, people talk of the knowledge-based economy; in the South, the World Bank now defines itself as a knowledge institution. But the question is: whose knowledge? This collection of general reflections and practical experiences illustrates the inappropriateness of a Western model in many local settings, and the positive value of non-Western systems of knowledge, values and ways of doing things. It shows how traditional knowledge is being recognised in the botanical and agricultural sectors - local medicinal herbs, local seed varieties and animal breeds, local methods of pest control. The projects illustrate the notion of endogenous development, or development from within. They show how development can be based on locally available natural resources and local knowledge, values and leadership institutions; how development options can be locally determined; and how to retain the benefits of development within local areas and communities. Endogenous development is not a total solution, but complementary to ongoing modern technological and global economic processes. But the remarkable experiments described do show the rich benef

Proceedings of International Conference on Intelligent Computing, Information and Control Systems A. Pasumpon Pandian 2021-01-24

This book is a collection of papers presented at the International Conference on Intelligent Computing, Information and Control Systems (ICICCS 2020). It encompasses various research works that help to develop and advance the next-generation intelligent computing and control systems. The book integrates the computational intelligence and intelligent control systems to provide a powerful methodology for a wide range of data analytics issues in industries and societal applications. The book also presents the new algorithms and methodologies for promoting advances in common intelligent computing and control methodologies including evolutionary computation, artificial life, virtual infrastructures, fuzzy logic, artificial immune systems, neural networks and various neuro-hybrid methodologies. This book is pragmatic for researchers, academicians and students dealing with mathematically intransigent problems.

Mulberry Maharaj Krishen Razdan 2021-07-26 Mulberry (*Morus* spp.) is an important horticultural plant in the sericulture industry. It belongs to the family Moraceae. The leaf of mulberry is used to feed the silkworm *Bombyx mori* L. It is also used as a fodder. Due to its economic and agricultural importance, mulberry is cultivated in many parts of the world. An estimated 60% of the total cost of silk cocoon production is for production and maintenance of mulberry plants. Therefore, much attention is needed to improve the quality and quantity of mulberry leaves. It is vital to increase the production of superior quality mulberry leaves with high nutritive value for the sericulture industry. Although a lot of research is going on in mulberry, very little effort has been made to compile the results of this research in a single book. This book provides an update of recent research works going on in this plant. It describes the taxonomy, conservation of germplasm, genetic diversity of various mulberry species, application of breeding techniques to improve the quality of mulberry, in vitro conservation, application of tissue culture techniques to improve mulberry species, production of haploids and triploids in

mulberry and improvement of abiotic stress adaptive traits in mulberry with relevance to adaptiveness to global warming.

Unruly Waters Sunil Amrith 2018-12-06 Asia's history has been shaped by its waters. In *Unruly Waters*, historian Sunil Amrith reimagines Asia's history through the stories of its rains, rivers, coasts, and seas - and of the weather-watchers and engineers, mapmakers and farmers who have sought to control them. Looking out from India, he shows how dreams and fears of water shaped visions of political independence and economic development, provoked efforts to reshape nature through dams and pumps, and unleashed powerful tensions within and between nations. Today, Asian nations are racing to construct hundreds of dams in the Himalayas, with dire environmental impacts; hundreds of millions crowd into coastal cities threatened by cyclones and storm surges. In an age of climate change, *Unruly Waters* is essential reading for anyone seeking to understand not only Asia's past and its future.

Religion, Caste, and Nation in South India V. Ravi Vaithees 2015-01-08 This work explores the religious roots of Tamil nationalism and the Dravidian movement through a critical examination of Maraimalai Adigal (1876-1950) and the Neo-Shaivite movement in Tamil Nadu. The book traces the anti-Aryan, anti-Brahmin character of Tamil nationalism and the Dravidian movement to the Neo-Shaivite movement that emerged against the background of Neo-Vedantic and Vaishnavite revivalist current that accompanied the rise of pan-Indian nationalism in Southern India.

Happiness Beyond Thought Gary Weber 2007-04 Praise for Happiness Beyond Thought "Husband, father, scientist, military officer, and senior executive in industry and academia, Gary Weber has led a full and successful worldly life. Throughout all of this, Gary has relentlessly pursued a path of practice and inquiry in order to understand life and achieve enlightenment. It is rare to find one who has reached this goal, and rarer still to find such a one who has been so immersed in worldly life. With this book, Gary has successfully integrated his profound realization with traditional non-dualistic teachings, as well as insights from Zen Buddhism and modern brain research, into a practical path that uses Yoga's time-tested practices of asana, pranayama, chanting and meditation to illumine a path to enlightenment for the modern reader." -Gary Kraftsow, author of Yoga for Wellness and Yoga for Transformation "Gary Weber offers a treasure chest of practices for the serious practitioner seeking liberation. On your own journey towards awakening, savor these simple, easy to follow practices culled from Weber's study with his primary teacher Ramana Maharshi, his on-going exploration of Zen meditation practice, and the life-enhancing results of his experiments on the laboratory floor of his yoga mat." -Amy Weintraub, author of Yoga for Depression

Handbook of Anticancer Drugs from Marine Origin Se-Kwon Kim 2014-11-27 This timely desk reference focuses on marine-derived bioactive substances which have biological, medical and industrial applications. The medicinal value of these marine natural products are assessed and discussed. Their function as a new and important resource in novel, anticancer drug discovery research is also presented in international contributions from several research groups. For example, the potential role of Spongistatin, Apratoxin A, Eribulin mesylate, phlorotannins, fucoidan, as anticancer agents is explained. The mechanism of action of bioactive compounds present in marine algae, bacteria, fungus, sponges, seaweeds and other marine

animals and plants are illustrated via several mechanisms. In addition, this handbook lists various compounds that are active candidates in chemoprevention and their target actions. The handbook also places into context the demand for anticancer nutraceuticals and their use as potential anti-cancer pharmaceuticals and medicines. This study of advanced and future types of natural compounds from marine sources is written to facilitate the understanding of Biotechnology and its application to marine natural product drug discovery research.

Looptail Bruce Poon Tip 2013-09-24 Can a company be cool, socially responsible ... and still make money? Welcome to the looptail. This is the extraordinary true story of Bruce Poon Tip and how, with nothing more than two credit cards and a burning desire to create an authentic, sustainable travel experience like nothing the world had ever seen, he created G Adventures, the world's most successful adventure travel company. Theories Of Yoga and WellBeing 2021-04-09 Yoga asanas or Yoga postures have been practiced in India since ancient days by the rishis and others to keep their minds and bodies healthy and stress free. The practice of asanas makes the physical body strong and ready for the inward journey. For the common person, asanas are the best procedure of keeping the body fit and healthy. Asanas have various kinds of positive effects on human body and mind, if done accurately. Babaji and the 18 Siddha Kriya Yoga Tradition Marshall Govindan 1991 The first authoritative biography of Babaji, the immortal master made famous by Yogananda's Autobiography of a Yogi, an all-time best-seller. Babaji lives today near Badrinath, in the upper Himalayan mountains. His body has not aged since the age of sixteen, when centuries ago he attained the supreme state of enlightenment and divine transformation. This followed his initiation into scientific art of Kriya Yoga by two deathless masters, the siddhas Agastyar and Boganathar, who belonged to the "18 Siddha Tradition", famous among the Tamil speaking people of southern India. This rare account, by a long time disciple, reveals their little known stories, ancient culture and present mission, as well as how their Kriya Yoga can be used to bring about the integration of the material and spiritual dimensions of life. Clear explanations of the psychophysiological effects of Kriya Yoga and guidelines for its practice are given. It includes verses from the Siddhas' writings with commentary. A book

which will inspire you.

INDIA'S NEW CAPITALISTS Harish Damodaran 2018-11-25 It's no secret that certain social groups have predominated India's business

and trading history, with business traditionally being the preserve of particular 'Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book – acclaimed for being the first social history to document and understand India's new entrepreneurial groups – Harish Damodaran looks to answer who the new 'wealth creators' are, as he traces the transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.
