Les Enfants de la Matrice Tome 2 David Icke Au cours des siècles, les Illuminati ont échafaudé leur plan : établir un gouvernement mondial, une banque centrale, une armée mondiale et marquer une population de puces électroniques reliées à un ordinateur central. La Matrice ! David Icke en parle depuis longtemps. C'est un précurseur, même si on a dit de lui qu'il était fêlé du coco ! Pourtant! Regardez-vous la télé ? Lisez-vous les journaux ? Naviguez-vous sur l'Internet ? Nous y sommes : ils veulent "puccer" nos enfants et nos aînés, pour leur sécurité ! Et les voyageurs, et les malades et les bien-portants, au cas où... Les Illuminati manipulent l'humanité par les émotions et le contrôle mental (mind control). L'une des techniques les plus efficaces de manipulation consiste à créer un problème (exemple : la disparition d'enfants), à attendre les réactions (nous ne sommes plus en sécurité, il faut que quelqu'un trouve une réponse à nos angoisses !!!), puis, de glisser subtilement la solution (la puce, comme celle au cou de votre chien...) déjà conçue, opérationnelle, prête à vous rassurer. Le manège infernal est commencé : ils ont réussi et les moutons sont tellement heureux qu'ils n'arriveront jamais à croire que le loup est entré dans la bergerie. Les Illuminati sont acclamés comme de sauveurs. Et vlan ! Voyez où ils nous mènent, tous pays confondus ! Nous sommes à un carrefour historique de l'Humanité. Personne ne le conteste. Avons-nous le temps et la détermination de miser encore sur la liberté, l'égalité et la fraternité ? À moins que nous ne souhaitions déjà nous soumettre au bâillon d'un état fasciste planétaire, nous écraser devant les puissants de cette monumentale conspiration et attendre, béatement, que le loup nous dévore! L'auteur de Les enfants de la matrice, tome 2, affirme qu'il est encore possible de vivre dans une société moderne en acceptant la diversité. Par contre, la vigilance s'impose : sachons bien identifier autant nos amis, que nos ennemis. L'auteur souhaite, avant tout, que l'Humanité, prise au jeu à son insu, se libère elle-même de la Grande Illusion, de la Matrice. Quand

chacun touchera sa vérité, la Matrice sera pulvérisée ! Ne nous fions jamais à une vérité imposée !

Before Atlantis Frank Joseph 2013-03-24 A comprehensive exploration of Earth's ancient past, the evolution of humanity, the rise of civilization, and the effects of global catastrophes • Explores biological evidence for the aquatic ape theory and 20-million-year-old evidence of pre-human cultures from which we are not descended • Traces the genesis of modern human civilization to Indonesia and the Central Pacific 75,000 years ago after a near-extinction-level volcanic eruption • Examines the profound similarities of megaliths around the world, including Nabta Playa and Gobekli Tepe, to reveal the transoceanic civilization that built them all Exploring emerging and suppressed evidence from archaeology, anthropology, and biology, Frank Joseph challenges conventional theories of evolution, the age of humanity, the origins of civilization, and the purpose of megaliths around the world. He reveals 20-million-year-old quartzite tools discovered in the remains of extinct fauna in Argentina and other evidence of ancient pre-human cultures from which we are not descended. He traces the genesis of modern human civilization to Indonesia and the Central Pacific 75,000 years ago, launched by a catastrophic volcanic eruption that abruptly reduced humanity from two million to a few thousand individuals worldwide. Further investigating the evolutionary branches of humanity, he explores the mounting biological evidence supporting the aquatic ape theory--that our ancestors spent one or more evolutionary phases in water--and shows how these aquatic phases of humanity fall neatly into place within his revised timeline of ancient history. Examining the profound similarities of megaliths around the world, including Nabta Playa, Gobekli Tepe, Stonehenge, New Hampshire's Mystery Hill, and the Japanese Oyu circles, the author explains how these precisely placed monuments of quartz were built specifically to produce altered states of consciousness, revealing the spiritual and technological sophistication of their Neolithic builders--a transoceanic civilization fractured by the cataclysmic effects of comets. Tying in his extensive research into Atlantis and Lemuria, Joseph provides a 20-million-year timeline of the rise and fall of ancient civilizations, both human and pre-human, the evolutionary stages of humanity, and the catastrophes and resulting climate changes that triggered them all--events that our relatively young civilization may soon experience.

Ancient Mysteries Peter J. James 1999 Examines some of the great mysteries of the ancient world, drawing on the latest research to reveal the secrets behind the Nazca lines, the destruction of Sodom and Gomorrah, and the curse of Tutankhamun

The Lost Civilization of Lemuria Frank Joseph 2006-05-17 A compelling new portrait of the lost realm of Lemuria, the original motherland of humanity • Contains the most extensive and up-to-date archaeological research on Lemuria • Reveals a lost, ancient technology in some respects more advanced than modern science • Provides evidence that the perennial philosophies have their origin in Lemurian culture Before the Indonesian tsunami or Hurricane Katrina's destruction of New Orleans, there was the destruction of Lemuria. Oral tradition in Polynesia

recounts the story of a splendid kingdom that was carried to the bottom of the sea by a mighty “warrior wave”—a tsunami. This lost realm has been cited in numerous other indigenous traditions, spanning the globe from Australia to Asia to the coasts of both South and North America. It was known as Lemuria or Mu, a vast realm of islands and archipelagoes that once sprawled across the Pacific Ocean. Relying on 10 years of research and extensive travel, Frank Joseph offers a compelling picture of this mother-land of humanity, which he suggests was the original Garden of Eden. Using recent deep-sea archaeological finds, enigmatic glyphs and symbols, and ancient records shared by cultures divided by great distances that document the story of this sunken world, Joseph painstakingly re-creates a picture of this civilization in which people lived in rare harmony and possessed a sophisticated technology that allowed them to harness the weather, defy gravity, and conduct genetic investigations far beyond what is possible today. When disaster struck Lemuria, the survivors made their way to other parts of the world, incorporating their scientific and mystical skills into the existing cultures of Asia, Polynesia, and the Americas. Totem poles of the Pacific Northwest, architecture in China, the colossal stone statues on Easter Island, and even the perennial philosophies all reveal their kinship to this now-vanished civilization.

Conquering the Chaos Ravi Venkatesan 2013-05-28 India is back! With the country's general elections in 2014 resulting in a government formed by a new political party, the Bharatiya Janata Party, led by a business-friendly prime minister, Narendra Kumar Modi, the world's largest democracy is once again on the minds of business leaders the world over. The renewal of interest in India is all the greater because of what's happening in neighboring China. For over thirty years, China was the growth engine for many Western multinational companies, but the combination of a slowing economy, rising wages, and increasing political risk has most companies looking for the next China. No other country is better positioned to play that role than India. In the short term, though, India will remain a challenging market, with a well-deserved reputation for corruption, uncertainty, and stultifying bureaucracy. Those hurdles are unlikely to go away soon. Yet India may be on the verge of unprecedented growth. Can you afford to wait or should you plunge into this complex market today? What does it really take to win there? How do executives deal with India's volatility, uncertainty, and intense competition—and even prosper from it? Ravi Venkatesan, the former Chairman of Microsoft India and Cummins India, offers expert advice on how your company can overcome the unique challenges of the Indian market. He argues that India is in fact an archetype for most developing nations, many of which present similar challenges. Succeeding in India is important not just because it is a big market but also because it is a litmus test for your corporation's ability to succeed in other emerging markets. If you can win in India, you should be able to win anywhere. Hard as these frontier markets are, Venkatesan argues, the bigger hurdle may well be the internal culture and mind-set at a multinational's headquarters. The unwillingness to make a long-term commitment or to adequately trust local leadership, combined with the propensity to rigidly replicate the products, business models, and operating systems that have worked at home, drives many companies into a “midway trap.” That often results in India remaining an irrelevantly small contributor to the company's global growth and profits. Combining personal experience and in-depth interviews with CEOs and senior leaders at dozens of companies—including Microsoft, GE, JCB, Dell, Honeywell, Volvo, Bosch, Deere, Unilever, and Nestlé—Venkatesan shows you how to tackle political changes, policy uncertainty, and corruption and thrive in India. He proves that you can break through, but it takes a very different type of leadership, both locally and at corporate headquarters. If you want to succeed in the twenty-first century, you must succeed in emerging markets. This practical book, written by one of India's most respected CEOs, gives you the keys to win in India, other emerging markets, and, indeed, globally.

Lost Race of the Giants Patrick Chouinard 2013-09-28 An exploration of mythological and archaeological evidence for prehistoric giants • Examines the many corresponding giant mythologies throughout the world, such as the Greek and Roman titans, Norse frost giants, and the biblical Nephilim • Reveals recent finds of giant skeletons in the deserts of Saudi Arabia and India • Explains how giants passed on their sophisticated culture and civilization to humanity before being wiped out in the great age of cataclysms and floods Giants are a cornerstone of the myths, legends, and traditions of almost every culture on Earth. Stories of giants are often considered fantasies of the ancients or primitive attempts to explain natural phenomena, but archaeological discoveries of 10- and 12-foot skeletons--many of which have been suppressed--confirm the existence of a forgotten golden age of giants before recorded history. Patrick Chouinard examines the staggering number of corresponding giant mythologies throughout the world, such as the Greek and Roman titans, Norse frost giants, the Hindu Daityas, the biblical Nephilim, the Celtic Formorach, the Sumerian Anunnaki, and the multitude of myths in which the sky or world is held aloft on the shoulders of a giant. He links these stories to Atlantis as well as other legends of prehistoric civilizations lost to cataclysm and great floods whose survivors spawned the rise of ancient civilizations. The author reveals how physical remains of giant-size peoples have been found on almost every continent, including recent finds in the deserts of Saudi Arabia, Afghanistan, and northern India as well as hundreds of excavations of giant mummies and skeletons across the United States, corresponding directly with Native American accounts of red-haired giants. He also examines reports from famous explorers such as Magellan, Sir Francis Drake, and Desoto of their encounters with giants on the North American continent. Revealing how giants represent the true earthborn race, Chouinard explains how they engaged in open conflict with the extraterrestrial gods who created humanity for forced labor and how they passed their sophisticated culture and civilization on to humanity before being nearly wiped out in the great age of cataclysms.

The Story of Atlantis W. Scott-Elliot 2021-11-17 The Story of Atlantis W. Scott-Elliot - FROM the time of the Greeks and the Romans onwards, volumes have been written about the peoples who in their turn have filled the stage of history. Their political institutions, religious beliefs, social and domestic manners and customs have all been analyzed and catalogued, and countless works in many languages record for the march of human progress. But little is known of the hundreds of thousands of years which elapsed from the time when the earliest humans started populating the Earth to the time of the Greeks and Romans - a time which bore witness to the rise and fall of innumerable civilizations, but especially to the most fabled ancient civilization of them all Atlantis. This book by W. Scott-Elliot attempts to do exactly this. Any record of the world's progress during the period of the Atlantean race must embrace the history of many nations and register the rise and fall of many civilizations. While it records the rise and the glory it must also record the decadence and ultimate demise of the Atlantean civilization as a whole. But above all, it should also trace any effects that this once great civilization still has on us in the 21st Century. Since the Atlantean craze was started in the late 19th C., many expeditions, searches and surveys have been conducted to find the remains of the fabled Atlantean civilization. To date all have been judged inconclusive. But what is it that keeps the Atlantean legend alive and in our consciousness? Could it be that the human race has a residual memory of this once great civilization? While our knowledge and libraries have grown enormously since the 1890s with vastly improved access, it would be a foolish person that states unequivocally that Atlantis doesn't exist or never existed at all; for to say so would be like believing the medieval Church's claim that world was the centre of the universe. In mankind's mind it was, until it was proven it wasn't.

Hidden Mysteries Joshua David Stone 1996-12-12 The Essenes, the Kahunas of Hawaii, Pan and the nature kingdom, the angelic kingdom, the

Vedas and Upanishads, the Kabbalah, the Yoga sutras of Patanjali, the Egyptian mysteries, and The Keys of Enoch: These profound spiritual teachings, unknown to so many on our planet, are a valuable resource to anyone wishing to move further along the path to enlightenment and ascension. This book contains a wealth of information on esoteric teachings, from the ancient mystery schools to the recently founded religions. More than a mere retelling of well-known facts, the story begins with what may be the most elusive knowledge of our time —that of the extraterrestrial presence on Earth.

When the Sky Fell Rand Flem-Ath 1997-12-15 Tenders new evidence, including an ancient Egyptian map, proving that the legendary civilization of Atlantis did exist and sank to the bottom of the sea, and predicts another environmental catastrophe that will bring about the end of the world. Reprint.

Upside Down World Eugene Crowley 2009 Upside Down World: The Loss of the Sacred Cosmos is an incisive look on the concept of self awareness, instructing readers on how to find their true identities and potential by showing through detailed research how one needs to view reality and thereby move into a state of fulfillment with life. Eugene Crowley Jr. uses the elements of philosophy, history, mythology, spiritual and scientific issues, and social elements of ancient cultures to show how Western civilization has neglected the knowledge and acts of self-realization, instead trying to act as society deems appropriate. Integrating many cultures and societies throughout time, including Native Americans, Ancient Egypt, the Greeks, and early Americans, the author references their beliefs, customs, and religions to help illustrate how other cultures and people live their lives in a more awakened state.

Survivors of Atlantis Frank Joseph 2004-08-10 Explores scientific evidence from four cataclysmic events that led to the development of civilization and the downfall of Atlantis • The sequel and companion volume to The Destruction of Atlantis • Studies the connections between the world-conquering war the Atlanteans launched and the quartet of natural catastrophes that ravaged the earth more than 5,000 years ago • Demonstrates that the Atlanteans ran an imperial copper trade empire that stretched from North America to Asia Minor Archaeologists have long puzzled over the evidence suggesting highly sophisticated copper mining activities in the area of the Great Lakes some 5,000 years ago. Menomonie Indian tradition speaks of fair skinned mariners who had come in the past to “dig out the shiny bones” of the Earth Mother. Plato, meanwhile, recorded that Atlanteans provided an exceptionally high grade of copper that was no longer available in his time. In this sequel to The Destruction of Atlantis, Frank Joseph argues that the Menomonie Indians’ mariners were Atlanteans and that the destruction of Atlantis by war and natural catastrophe brought about the end of Bronze Age civilization. Furthermore, Atlantis’s survivors dispersed to all sides of their former island empire into Western Europe, the Near East, and North and South America. In Survivors of Atlantis Frank Joseph provides an in-depth study of the Atlantean war and the intimate connections it had with the last of four great cosmic catastrophes generated by the cyclical return of a comet and its debris. This quartet of natural disasters was followed by mass migrations recorded in the histories of such diverse peoples as the Incas of Peru, the Celtic Irish, the Classical Greeks, and the Aztecs of Mexico. Where the archaeology, mythology, astronomy, and geology of these cultures coincide, a common thread is exposed: Atlantis. Joseph shows that the fate of the Atlantean empire is the story of early civilization and reveals Atlantis to be a credible part of the world’s history.

Atlantis and the Coming Ice Age Frank Joseph 2015-03-16 Reveals the parallels between the rise and fall of Atlantis, cultures in ancient Mesoamerica, and our modern civilization • Links the demise of Atlantis with the birth of the Olmec civilization in Mexico, the beginning of the first Egyptian dynasty, and the start of the Mayan Calendar • Reveals the Atlantean and Mayan prophecy of an eternal cycle of global creation, destruction, and renewal and how we are headed into a destructive phase • Shows how ancient prophecies correlate precisely with the latest

climatology studies, the rising incidence of solar flares, and papers from Pentagon and NASA analysts With the passing of the Mayan Calendar's end date we can now focus on the true significance of what the Maya and their predecessors were trying to convey to future civilizations. Frank Joseph reveals how the Mayan prophecy, symbolized by their calendar, was created through the combined genius of Atlantis and Lemuria and predicts an eternal cycle of global creation, destruction, and renewal. He shows how this cycle correlates precisely with scientific studies on glacial ice cores and predictions from the Hopi, the Incas, and the Scandinavian Norse as well as the visions of Edgar Cayce. He links the demise of Atlantis with the birth of the Olmec civilization in Mexico (the progenitors of the Maya), the beginning of the first Egyptian dynasty, and the start of the Mayan Calendar. Drawing on the latest climatology studies and papers from Pentagon and NASA analysts, he reveals that we are on the brink of a destructive phase in the global cycle of change as predicted by the Atlanteans and the Maya. The world's current political, economic, and cultural deterioration is paralleled by unprecedented storms and record temperatures, massive solar flares, tectonic disturbances, and fissuring sea floors that could release dangerous reservoirs of methane gas into the environment--all of which signals we are headed into another ice age. Despite the Atlanteans' greater understanding of the cyclical nature of catastrophes and of the human role in them, Joseph reveals the mistakes they made that played a crucial role in their civilization's destruction. By recognizing the self-destructive patterns of Atlantis in our own civilization, we can learn from their mistakes to reestablish civilization's cosmic balance before time runs out.

Egypt: Child of Atlantis J. S. Gordon 2004-05-18 Reveals that Egyptian civilization is far older than commonly believed and that its sacred science was the legacy of the gods who founded Atlantis • Explains the cosmological and astronomical underpinnings of Egyptian philosophy and how they gave structure to the entire society • Explores the importance of the Precession of the Equinoxes in the initiatory nature of Egyptian life This book asserts that the civilization of Egypt existed far longer than is commonly believed and was structured around forms of cosmic knowledge that involved astronomical and geographical competence that modern science has yet to attain. Building on evidence of the prehistoric existence of an ancient worldwide religious culture that extended all the way to Tibet and China, John Gordon traces the origins of Egyptian culture to the legendary lost continent of Atlantis. Based on an understanding of the Precession of the Equinoxes and its inextricable connection to human evolution and divine purpose, he concludes that the sacred science of the ancient Egyptians was the legacy left to them by "fallen star gods," conscious divine beings who founded Atlantis. Egyptologists contend that ancient Egypt was a civilization obsessed with death, that its greatest monuments were tombs, and that its history dates back only some 5,000 years. In contrast Gordon suggests this civilization to have been 50,000 years older. Furthermore, he contends that Egypt was originally not a society obsessed with death, but one that saw in life and death an initiatory transition. This idea was followed by the entire population, which was attuned to the form and nature of cosmic evolution at all levels of being, from the highest to the most mundane.

The Mayan Prophecies Adrian Gilbert 1996 The present world will end on 22nd December 2012, so prophesized the Maya 5000 years ago in their inscriptions deep within the Central American rainforests. Who were the Maya? Where did they come from and why did they suddenly disappear? Will we suffer floods, volcanic eruptions and chaos in 2012?

The Sign Thomas de Wesselow 2012-03-26 The Sign by Thomas de Wesselow finally solves Christianity's greatest mystery 'The thinking man's Dan Brown' Sunday Times How did Christianity really begin? In this powerful and controversial book, art historian Thomas de Wesselow reveals that the answer to this puzzle lies in one of the most mysterious images in the world - the Shroud of Turin. Re-examining the Shroud and New

Testament texts, he argues that the traditional Christian view - that the apostles were inspired by seeing Jesus raised from the dead - is a profound misconception. Using scientific, archaeological and historical evidence, *The Sign* demonstrates that the Shroud is the actual burial-cloth of Jesus. That haunting image - which is a natural stain - holds the key to the greatest mystery in human history. This astonishing book will appeal to readers around the world and is a must for fans of *The God Delusion* by Richard Dawkins, *Inferno* by Dan Brown and Diarmaid MacCulloch's *A History of Christianity*. 'Very intriguing' Mail on Sunday 'A fascinating account of the Shroud as an image' BBC History Magazine 'Thorough, well-researched and fair-minded. Persuasive... much more than just an addition to the canon of Shroud literature' Irish Times

Thomas de Wesselow earned his MA and PhD at London's Courtauld Institute, researching the controversial Guidoriccio fresco in Siena, before becoming a Scholar at the British School in Rome where he worked on another of the great mysteries of Italian art history, the Assisi Problem. He has written on a number of famous Renaissance pictures whose meanings have hitherto defied analysis, including Botticelli's *Primavera* and Titian's *Sacred and Profane Love*. Since 2007 he has been researching this book full-time. He is 40 years old and he lives in Cambridge.

Nephilim Island Shawn Hopkins *THE NEPHILIM WERE ON THE EARTH IN THOSE DAYS - AND ALSO AFTERWARD - WHEN THE SONS OF GOD WENT TO THE DAUGHTERS OF MEN AND HAD CHILDREN BY THEM. THEY WERE THE HEROES OF OLD, MEN OF RENOWN.* - GENESIS 6:4 It has been months since John Carter's estranged brother, Henry, has gone missing. When last heard from, he was sailing off to Bermuda in search of an author whose books deal with the esoteric traditions of past ages. Reluctantly, John joins Henry's old Special Forces Teammates on a trip to Bermuda, hoping to discover the truth behind Henry's disappearance. But not all is as it seems in Bermuda, and the puzzle that awaits John on the small island paradise will prove to be more sinister than anything the world has seen in a very long time. As the fingers of an ancient evil seek to draw him into another world - a world where all of Hell is trying to break loose - John must confront the truth of his own past...and pray that he might survive its revelation... ...that the world might survive its revelation. Described as "Dan Brown meets Lost meets Left Behind," *Progeny* takes the reader through the heart of the Bermuda Triangle and drops them in a world where biblical legends and ancient mythologies - the similarities of which Hopkins "describes with academic dexterity" - reign terrifyingly supreme. Buckle up! *Progeny* is "equal parts religious thriller and action-packed roller coaster ride!"

Atlantis in the Amazon Richard Wingate 2011-05-20 An investigation into the ancient technologically advanced artifacts amassed by Father Carlo Crespi and how they offer proof of Atlantis in South America • Includes photos and descriptions of the strange machines and beautiful artifacts that once comprised the "Crespi Treasure" • Connects Crespi's treasures to readings by Edgar Cayce and Annie Besant's descriptions of Atlantean colonies in Ecuador • Reveals the nuclear war between the Atlanteans and the Aryans and the radioactive evidence left behind in the Bahamas and Pakistan In 1923 an Italian priest, Father Carlo Crespi, came to Ecuador as a missionary. Befriending the indigenous Shuar people, he learned of an ancient treasure they had sworn to protect hidden within a network of underground tunnels. As newly converted Christians, the Shuar wanted to share with their priest these amazing anachronistic artifacts--golden sarcophagi from Egypt, bronze plaques depicting famous scenes from antiquity bearing both Quechua and Phoenician writing, copper wheels and gears as hard as steel, strange machines, and many other inexplicable items. Crespi faithfully maintained the collection until just before his death when the Ecuadorian government purchased it from the church and many of these priceless treasures were lost forever. Providing detailed descriptions and his own photos of the advanced technologies and beautiful art that comprised the "Crespi Treasure," Richard Wingate reveals that the ancient civilization responsible for these advanced artifacts was Atlantis. Connecting Crespi's treasures to Edgar Cayce's descriptions of advanced technology in the distant past and the Atlantean colonies of Ecuador described by Annie Besant, Wingate explores other evidence of Atlantis in

South America and the Bahamas, including geographically out-of-place underwater ruins and buried magnetic ore. Investigating ancient records, such as the Mahabharata, he shows how a prehistoric nuclear war between the Atlanteans and the Aryans ultimately resulted in the sinking of Atlantis, and he uncovers the radioactive archaeological evidence left behind. Explaining how our ancient ancestors regretted their nuclear actions and destroyed or buried their advanced technology, entering into a self-imposed Stone Age, he shows how our civilization is headed down the same path and that only through "green" choices can we avoid the same fate as Atlantis.

The Path of the Pole Charles H. Hapgood 1999 Hapgood's tour de force is back in print! This riveting account of how earth's poles have flipped positions many times is the culmination of Hapgood's extensive research of Antarctica, ancient maps and the geological record. This amazing book discusses the various pole shifts in earth's history -- occurring when earth's crust slips in the inner core -- and gives evidence for each one. It also predicts future pole shifts: a planetary alignment will cause the next one on 5 May 2000! Packed with illustrations, this book is the reference other books on the subject cite over and over again. With millennium madness in full swing, this is just the book to generate even more excitement at the unknown possibilities.

Digging Through History Richard A. Freund 2016-10-27 Digging through History follows rabbi and archaeologist Richard Freund's journey through some of the most fascinating archaeological sites of human history including the mysterious Atlantis, Qumran and the Dead Sea Scrolls, and the long-buried Holocaust camp Sobibor. Each chapter takes readers through a different archaeological site, showing what we can learn about past religious life and religious faith through the artifacts found there, as well as what has given each site such strong "staying power" over time."

LES ENFANTS DE LA MATRICE TOME 1 David Icke Nous arrivons sur cette planète, enchâssés dans une matrice conçue par des forces invisibles qui contrôlent l'humanité depuis des millénaires. Il ne s'agit pas du scénario catastrophe d'un film hollywoodien ou d'un épisode des Affaires non classées. C'est notre réalité. Avec l'aplomb qui le caractérise, David Icke dénonce la terrifiante conspiration dont nous, les humains, sommes victimes depuis des temps immémoriaux. Cette conspiration est dirigée à partir d'une dimension hors du monde physique et le Plan se déroule sous un énorme truquage avec les grands de la Terre comme complices. David Icke décline les liens consanguins entre des entités d'origine reptilienne et les créatures humaines qu'elles dominent. Les dirigeants actuels de la planète (quels qu'ils soient) sortent des mêmes viscères que les rois et reines de jadis (voir LE PLUS GRAND SECRET). L'humanité entière est en danger quand elle remet son avenir entre les mains de ses gouvernements. Les révélations de David Icke sont essentielles à l'éveil des peuples : leurs idoles sont des marionnettes imbues de leur pouvoir passager et feignent d'ignorer la perfidie du rôle qui leur est assigné. L'humanité est emmurée dans une prison psychologique, émotive et spirituelle. Et l'humanité, c'est chacun de nous ! Les livres de David Icke dérangent parce que l'auteur prouve que la réalité quotidienne de notre planète dépasse largement l'imagination la plus débordante. Analysons avec minutie les informations retransmises par les médias et vérifions à la loupe chacun des faits et gestes des têtes dirigeantes et surtout, souvenons-nous des inepties qu'on nous sert. Le résultat risque d'être troublant ! Ne soyons plus dupes de cette vaste machination et brisons la matrice! C'est une question de vie, de notre vie. Gouvernons-nous en conséquence !

Atlantis beneath the Ice Rand Flem-Ath 2012-02-10 Scientific and mythological evidence that Antarctica was once Atlantis • Reveals how the earth's crust shifted in 9600 BCE, dragging Atlantis into the polar zone beneath miles of Antarctic ice • Examines ancient yet highly accurate maps, including the Piri Reis map of 1513, which reveals a pre-glacial Antarctica • Shows how myths of floods and disaster from around the world all point to a common source In this completely revised and expanded edition of When the Sky Fell, Rand and Rose Flem-Ath show that

12,000 years ago vast areas of Antarctica were free from ice and home to the kingdom of Atlantis, a proposition that also elegantly solves the mysteries of ice ages and mass extinctions, the simultaneous worldwide rise of agriculture, and the source of devastating prehistoric climate change. Expanding upon Charles Hapgood's theory of earth crust displacement, which was championed by Albert Einstein, they examine ancient yet highly accurate world maps, including the Piri Reis map of 1513, and show how the earth's crust shifted in 9600 BCE, dragging Atlantis into the polar zone where it now lies beneath miles of Antarctic ice. From the Cherokee, Haida, and Okanagan of North America to the earliest records of Egypt, Iran, Mexico, and Japan, they reveal that ancient myths of floods, lost island paradises, and visits from advanced godlike peoples from all corners of the globe all point to the same worldwide catastrophe that resulted in Atlantis's demise. The authors explain how the remaining Atlanteans, amid massive earthquakes and epic floods, evacuated and spread throughout the world, resulting in the birth of the first known civilizations. Including rare material from the archives of Charles Hapgood, Albert Einstein, and Dwight D. Eisenhower, the Flem-Aths explain how an earth crust displacement could happen again in the future, perhaps in correspondence with high solar activity. With new scientific, genetic, and linguistic evidence in support of Antarctica as the location of long-lost Atlantis, this updated edition convincingly shows that Atlantis was not swallowed by the sea but was entombed beneath miles of polar ice.

New Realities of the Twenty-first Century, Part 1 Prophet Wildman 2017-02-07 New Realities of the Twenty-first Century, Part 1 by Prophet Wildman The psychic/parapsychic experience in the supernatural is one that is not readily understood or accepted by the masses. After enjoying the gift of psychic future predictive awareness for more than fifty years, Prophet Wildman had a deep understanding of the psychic and parapsychic experience. However, it wasn't until 2008 when he began receiving Holy subject (Tribulation) awareness as a precognitive psychic medium that he really began to delve deeper into this relatively unknown subject and explore psychic and parapsychic experiences as they related to the supernatural and Christianity. Prophet Wildman wows his readers with first-hand experiences, both from the perspective of being Christian and of being a psychic medium, while also providing a comprehensive dissection and decoding of the Tribulation event as it relates to the prophecy. Wildman's deeply personal experiences, along with factual statements and others' first-hand experiences, provide the reader with a comprehensive read that will strengthen one's faith in Christ and Christianity, while opening up rarely explored doors to the supernatural, psychic and parapsychic worlds. Explore the unknown with Prophet Wildman as he weaves his unwavering Christian beliefs with everything from extraterrestrials and ultraterrestrials to vampires, U.F.O.s, and government cover-ups. An open mind and a strong religious conviction are all that's needed to begin searching and discovering some of the biggest mysteries of our time.

The Theory Of Celestial Influence Rodney Collin 2019-01-15 Before Paulo Coelho and Eckhart Tolle came Rodney Collin. A huge 466 page book full of essential knowledge. How To Become Supernatural Man, The Universe and Cosmic Mystery is an exploration of the universe and man's place in it. Rodney Collin examines 20th-century scientific discoveries and traditional esoteric teachings and concludes that the driving force behind everything is neither procreation nor survival, but expansion of awareness. Collin sets out to reconcile the considerable contradictions of the rational and imaginative minds and of the ways we see the external world versus our inner selves. For readers familiar with Gurdjieff's cosmology will here find further examinations of the systems outlined in by Ouspensky in Search of the Miraculous.

The History of Atlantis Lewis Spence 2003-01-01 The romantic legend of Atlantis has captured imaginations since Plato first told of a glorious island in the Atlantic that sank beneath the waves. Speculation has abounded ever since, and scientists who formerly dismissed the possibility that Atlantis ever existed were obliged to reconsider--partly because of the author of this book. Lewis Spence (1874-1955) wrote five books about Atlantis, and this one is considered his best. Spence sifted through a tremendous body of research in fields from mythology and

comparative religion to geography, geology, and archeology. The result is the most authoritative study ever published on the history, geography, animal life, government, and religion of this fabled island.

The Cygnus Mystery Andrew Collines 2012-01-01 The Cygnus Constellation holds the key to proving that life originated in the heavens—and will ultimately return there. Best-selling author Andrew Collins has uncovered an astronomy that is about 17,000 years old, with standing stones, temples, and monuments across the globe oriented towards Cygnus's stars. He also found that the use of deep caves by Palaeolithic man led to the rise of religious thought and the belief in life's stellar origins. Now modern-day technology has confirmed that high-energy particles come from a binary star known as Cygnus X3. Ancient people knew what science is finally verifying: that the DNA of life came originally from deep space.

From Atlantis To The Sphinx Colin Wilson 2011-06-08 Inspired by the revelation that the Sphinx had been weathered by water and not by wind-blown sand and was, therefore, thousands of years older than the oldest civilisation known to man, Colin Wilson sets out to explore the remote depths of history. The compelling argument of this bestselling book is that, thousands of years before Ancient Egypt and Greece held sway, there was a great civilisation whose ships travelled the world and who possessed some knowledge system that offered a unified view of the universe, alien to modern man. In this fascinating exploration of the world at a time when, according to Plato, the 'lost civilisation' of Atlantis was destroyed, the author makes a ground-breaking attempt to understand how these long-forgotten peoples thought, felt and communicated on a universal plane.

Atlantis and the Kingdom of the Neanderthals Colin Wilson 2006-06-27 The history of Neanderthal influence from Atlantis to the contemporary era • Provides evidence of Neanderthal man's superior intelligence • Explores the unexplained scientific and architectural feats of ancient civilizations • Presents an alternative history of humankind since 7500 B.C. with an emphasis on esoteric traditions and the history of Christianity from the Essenes onward In Atlantis and the Kingdom of the Neanderthals Colin Wilson presents evidence of a widespread Neanderthal civilization as the origin of sophisticated ancient knowledge. Examining remarkable archaeological discoveries that date back millennia, he suggests that civilization on Earth is far older than we have previously realized. Using this information as a springboard, Wilson then fills in the gaps in the past 100,000 years of human history, providing answers to previously unexplained scientific and architectural feats of ancient civilizations. Wilson shows that not only did Atlantis exist but that the civilizing force behind it was the Neanderthals. Far from being the violent brutes they are traditionally depicted as, Wilson shows that the Neanderthals had sophisticated mathematical and astrological knowledge, including an understanding of the precession of the equinoxes, and that they possessed advanced telepathic abilities akin to the "group consciousness" evident in flocks of birds and schools of fish. These abilities, he demonstrates, have been transmitted through the ages by the various keepers of the hermetic tradition—including the Templars, Freemasons, and other secret societies. In the course of his investigation, Wilson also finds new information about historical links between the Masonic tradition and the Essenes that indicate that America was "discovered" long before Columbus set sail and that Jesus actually survived crucifixion and fled to France with his wife Mary Magdalene.
